

Nguyen Thi Huynh Nhu - Khon Kaen University (KKU) - Thailand

I am grateful to thank Biotechnology Research and Development Institute (BiRDI), Can Tho University where germinated many young generations with a strong academic foundation. I grew up from the enthusiastic guide of lecturers and staffs of BiRDI, I proud of a member of small family Advanced Biotechnology Course 34 (ABC 34) in a big family BiRDI. As a thankful to my teachers and my family, I got a full scholarship from Science Faculty, Khon Kaen University (KKU), Thai Lan. I am studying Master in Biological Science at Microbiology Department, Science Faculty, KKU.

My supervisor Dr. Nuntavun Riddech

All of Vietnamese Students are welcome in KKU, We are given a good condition for studying, living and learning Thai culture in many extra activities. All lectures are kind and friendly, I usually have a specifics class, one student and one teacher so this is a wonderful chance to experience the wide of knowledge. Now, I have Ajarn (it means teacher in Thai), Grandparents, brothers, sisters and lovely friends from Indonesia, Sudan, Lao, and Campodia..... And we have a small BiRID in KKU with eight members from

BiRID, Can Tho University. Wish all of you healthy, happy, success in your life!
