

## Tran Diem Phuong– Ghent University - Belgium

MSc Tran Diem Phuong is conducting doctoral dissertation “Development of tropical fruit filled pralines base on Vietnamese organic cocoa mass” followed the scholarship of Belgian Technical Cooperation Scholarships). This dissertation is carried at Cacao Lab, Department of Food Safety and Food Quality, Faculty of Bioscience Engineering, Ghent University cooperated with Biotechnology Research and Development Institute, Can Tho University under the supervision of Professor Koen Dewettinck and Assoc. Professor Tran Nhan Dung. The aim is to apply the advanced techniques of Belgium (which is among the top countries of high quality cocoa manufacture) for producing high quality cocoa base on organic cocoa and tropical fruits of Vietnam, thus it could contribute to the substantial development of cocoa in Vietnam.
